Business Garden Vilnius is a modern business center aimed to create an excellent working environment for numerous employees and businesses.

Fully surrounded by nature, various rest and recreational green zones, this four-complex business park will soon offer more than 60 000 sq. m. of office space.

Innovative business park concept will allow Business Garden Vilnius to offer comfortable and eco-friendly work environment. Furthermore, the latest architectural and construction solutions will meet „LEED Platinum” certification requirements for A class category buildings.

Besides traditional office spaces, the business park will integrate restaurants, cafes, common conference and meeting rooms, bookstore, library, reception, guest lounge and multiple green areas.

The office complex will open in a strategic and one of the busiest areas of Vilnius – Laisves Avenue. The developed infrastructure will help to facilitate the commute to the city center, airport, and roads leading to local and international highways.
